WLTP

The Worldwide Harmonized Light-Duty Vehicle Test Procedure (WLTP) is designed to provide a standardised measurement and enables the consumer to make reliable comparisons between vehicles in terms of energy (fuel and/or electricity) consumption, emissions, and electric vehicle range. However, it should be noted that the results of this test may not accurately reflect the actual fuel consumption, emissions, or range that a driver might experience in the real world. Actual results may vary depending on various factors such as driving style, road conditions, temperature, weather, vehicle load, and maintenance. Therefore, the WLTP results should be considered as an indicator of the vehicle's performance and not as a guarantee of the actual energy consumption, emissions, or range that a driver will experience in real-world driving conditions, or for making a vehicle-to-vehicle comparison. All WLTP test values are provided in accordance with New Zealand Land transport Rule: Vehicle Efficiency and Emissions Data 2022. For further information, please visit - <https://www.skoda.co.nz/owners/wltp>

Price*	Price from	Price from

* Prices are maximum retail including 15% GST. Prices & specifications are subject to change without notice. Maximum Retail Price does not include additional on road costs.

**Standard warranty. Other promotional offers may exceed standard terms, and if selected they would be added to vehicle price.

***New Zealand Government Clean Car rebates / fees may apply for new vehicles sold from the 1st April 2022. Values stated should be taken as guidance only and may be subject to change without notice. For further details, see [skoda.co.nz/clean-car](https://www.skoda.co.nz/clean-car)

****The official fuel consumption, emissions, and EV range figures determined by the WLTP test should be used as a guide only, or for vehicle to vehicle comparison. Actual results may vary due to factors such as driving or environmental conditions.
